

RTM Seismic Scaling: $\tau \propto L^\alpha$
 $\alpha = 1.003 \pm 0.016$, $R^2 = 0.987$

α by Fault Type
All consistent with ballistic propagation ($\alpha \approx 1$)

Residuals vs Magnitude
RMSE = 0.061 dex

Data Collapse Test
CV = 0.142 (< 0.30 = PASS)
